

PSHE Curriculum Statement

Quotes that guide us:

'It is vital that when educating our children's brains, we do not neglect to educate their hearts.' Dalai Lama

'Do not judge me by my successes, judge me by how many times I fell down and got back up.' Nelson Mandela

Why is it important to teach PSHE? (Intent)

The purpose of teaching PSHE is to enable children to become a healthy, happy, independent and responsible member of society. It is important not just to help children develop academically but as people. School has a huge role to play in this. PSHE aims to help children understand and explore how they are developing personally and socially. It tackles many of the moral, social and cultural issues that are part of growing up.

Key Concepts:

- We need to respect ourselves and others
- We need to express our views confidently, listening to and respecting the views of others
- We are aware of different types of relationships
- We are aware of our feelings and emotions and know some techniques for dealing with them
- We can identify ways to cope with new challenges
- We develop a growth mindset
- We can make choices about how to develop a healthy lifestyle.

Curriculum Design (Implementation)

Our PSHE curriculum provides a clear and comprehensive document that will show progression of skills and knowledge across all key stages. The coverage of the PSHE curriculum is suggested by the PSHE Association, Teachers use cross-curricular links when possible.

Our PSHE curriculum gives children the opportunity to:

- Work collaboratively to explore and develop understanding of: relationships, health and well-being and living in the wider world.
- Utilise themed national initiative days to raise awareness and engage with rich experiences.

Knowledge Focused

To ensure clear sequences of learning we use the PSHE Association question-based model of learning to plan lessons. Development and progression is ensured across each Key Stage.

What we do well as a Trust (Impact)

As well as discrete lessons and being taught through topics, PSHE weaves through all that we do and is at the heart of our Trust ethos and culture. For example, PSHE is regularly taught through well prepared and planned assemblies which focus on such topics as having a Growth Mindset, how to be resilient, emotional literacy, self-regulation, diversity and bullying. PSHE is also taught through whole class Circle Times and discussions and even through other means such as class novels and poetry. As a Trust we have display boards which celebrate hard work and effort. We have regular Mindfulness activities throughout the day, this includes things such as yoga, meditation, colouring and massage. The school gets involved in a variety of fundraising events throughout the year. The Trust also engages with national days such as Odd Sock Day and anti-bullying week.

The wellbeing and happiness of our children is a priority. The Trust is trauma informed and mental health aware. All staff have received TIS training and there are specially trained TIS practitioners. When appropriate 1:1 sessions are provided by staff to children who are suffering from anxiety or other mental health issues, this sometimes happens in our schools' HUT (Helping Us Thrive) rooms. The Trust has a Relationship Policy which guides and articulates how everyone treats everyone else. Our Managing & Supporting Positive Behaviour policy compliments this policy. We also share information about PSHE topics with parents, for example things such as values discussed in assemblies are also added to the weekly newsletters.

Our children are also encouraged to develop their self-worth by contributing to school life and the wider community, for example charity events, providing community donations (Harvest festival).

PSHE Curriculum

AIMS

The aims of Personal, Social & Health Education at Discovery Multi-Academy Trust are:

- To develop the knowledge, skills and attributes our pupils need to manage their lives, now and in the future. These skills and attributes help pupils to stay healthy, safe and prepare them for life and work in modern Britain. When taught well, PSHE education helps pupils to achieve their academic potential, and leave school equipped with skills which they will need throughout later life.
- To build a PSHE curriculum which develops learning and results in the acquisition of knowledge and skills which enables children to access the wider curriculum, and to prepare children to be global citizens now and in their future roles within the global community.
- To design a curriculum with appropriate subject knowledge, skills and understanding to fulfil the new PSHE strands: health and wellbeing, relationships and living in the wider world. See the Relationship and Sex Education Policy.
- To provide children with accurate and relevant knowledge of PSHE.
- To provide children with opportunities to create personal understanding.
- To provide children with opportunities to explore and challenge a range of values, attitudes, beliefs, rights and responsibilities. Children will develop a range of skills and strategies to live a healthy, safe, fulfilling, responsible and balanced life.

PSHE is an essential part of our everyday learning across the Trust. It is incorporated into everything that we do and relates closely to our vision of ensuring that every child is able to thrive and achieve their full potential, through quality learning experiences. We also ensure that our children are safe, secure and happy during their time with us and endeavour to fully prepare them for their secondary school education and beyond. We also enjoy working with and amongst our community and strongly believe that this supports our pupils' moral values.

STATUTORY REQUIREMENTS

PSHE is a non-statutory subject. However, there are aspects of it which we are required to teach. We must teach Relationships and Sex Education (RSE) under the Children and Social Work Act 2017 (legislation.gov.uk) in line with the terms set out in the statutory guidance: Relationships and sex education (RSE) and health education - GOV.UK (www.gov.uk) We must teach Health Education under the same statutory guidance.

WHAT WE TEACH

As stated above, we're required to cover the content for Relationships and Sex Education, and Health Education, as set out in the statutory guidance (linked to above). Refer to our Relationships and Sex Education Policy for details about what we teach, and how we decide on what to teach, in this subject. This can be found on each of our school's websites, or through our school offices.

HOW WE TEACH IT

Personal, Social and Emotional Development is a prime area within the Early Years Foundation Stage Framework. The prime areas, are seen as particularly important for igniting curiosity and enthusiasm for learning, and for building children's capacity to learn, form relationships and thrive. There are 3 strands within the area.

Building relationships: Children work and play cooperatively and take turns with others. They form positive attachments to adults and friendships with peers. They show sensitivity to their own needs and those of others.

Self-regulation: Children show an understanding of their own feelings and those of others, and begin to regulate their behaviour accordingly. They set and work towards simple goals, being able to wait for what they want and control their immediate impulses when appropriate. They give focused attention to what the teacher says, responding appropriately even when engaged in activity, and show an ability to follow instructions involving several ideas or actions.

Managing self: Children will be confident to try new activities and show independence, resilience and perseverance in the face of challenge. They explain the reasons for rules, know right from wrong and try to behave accordingly. They manage their own basic hygiene and personal needs, including dressing, going to the toilet and understanding the importance of healthy food choices.

The Trust uses the PSHE Association Question-Based model to support teaching and learning. PSHE themes are mapped onto long terms plans for each year group from EYFS – to Year 6 and lessons may be taught weekly, or blocked into a series of lessons. EYFS, PSHE also forms part of the Early Learning Goals learning and a more integrated approach to teaching this subject also occurs daily in the EYFS. Individual learning for PSHE is recorded in books, where appropriate, and whole class work may be recorded and shared in a class PSHE book e.g. whole class mind-mapping/annotations from discussions. Other evidence of curriculum learning for PSHE (and SMSC) is recorded in whole school/year group/class portfolios e.g. visitor experiences, trips, charity work/events.

PSHE is also taught in a cross curricular way and links with other subjects e.g. focusing in PE on how exercise makes us feel mentally as well as our bodies, promoting healthy lifestyles in Science and internet safety is taught through Computing.

Through the teaching of PSHE we are able to develop and actively promote the Fundamental British Values of: democracy, the rule of law, individual liberty and mutual respect and tolerance of those with different faiths and beliefs. This is supported by the spiritual, moral, social and cultural (SMSC) aspects of school life.

Any trips taking place over the school year always make the most of any teaching and learning opportunities, so that pupils are able to develop many aspects of their lives. Throughout the year, we may arrange visits into the schools across the Trust from health care professionals or local community members who support our children in making safe and healthy choices. We also work with charities including the NSPCC and more locally with Junior Life Skills.

PSHE and PSHE should be accessible for all pupils. As a Trust we promote inclusion for all and celebrate difference. Every child and family have a right to feel included and valued in our school community. Under the Equality Act 2010 we have a duty not to discriminate against people on the basis of their age, disability, gender, gender identify, pregnancy or maternity, race, religion or belief and sexual orientation. The Act allows schools to take a positive action to deal with particular disadvantages affecting one group because of one of the characteristics listed above. An example of this in relation to RSE and PSHE in our school is that we may need to provide additional learning opportunities for children with special educational needs and/or disabilities. Our Managing and Supporting Behaviour Policy also prioritises restorative practice to ensure social skills are developed at every opportunity.

All staff across the Trust teach pupils, and are aware, of both conscious and unconscious bias and how their attitudes and personal beliefs could affect the pupils in their care. Controversial and difficult questions are always dealt with rather than avoided. As part of being a Mentally Healthy Organisation (TISUK) relationships and social interactions are key as well as acting with empathy and compassion. We have worry boxes/'I wish my teacher knew' boxes set up around the

PSHE - Whole School Progression Map

schools/classes in the Trust, which children can use to put any concerns in. Our Helping Us Thrive (HUT) team empty these daily and provide support to pupils, or groups of pupils, with any worries or concerns. The HUT also offers interventions for children struggling with their SEMH.

Anything beyond the knowledge taught as part of our PSHE school or RSHE scheme is referred back to parents, so that we are not influencing pupils in any way.

The children across the Trust contribute to well-being surveys and pupil voice interviews. Assessment is also on-going, through feedback from the children. As with all of our learning in school, progress is reported to parent's day-day through formal and informal meetings, through written reports, emails and telephone conversations and scheduled annual parents' meetings.

PSHE - Whole School Progression Map

Level expected at the end of EYFS

Personal, Social and Emotional Development (Making Relationships)

Children play co-operatively, taking turns with others. They take account of one another's ideas about how to organise their activity. They show sensitivity to others' needs and feelings, and form positive relationships with adults and other children.

Physical Development (Health and Self-Care)

Children know the importance for good health of physical exercise, and a healthy diet, and talk about ways to keep healthy and safe.

Personal, Social and Emotional Development (Self-Confidence and Self-Awareness)

Children are confident to try new activities, and say why they like some activities more than others. They are confident to speak in a familiar group, will talk about their ideas, and will choose the resources they need for their chosen activities. They say when they do or don't need help.

Understanding the World (People and Communities)

Children talk about past and present events in their own lives and in the lives of family members. They know that other children don't always enjoy the same things, and are sensitive to this. They know about similarities and differences between themselves and others, and among families, communities and traditions.

Personal, Social and Emotional Development (Managing Feelings and Behaviour)

Children talk about how they and others show feelings, talk about their own and others' behaviour, and its consequences, and know that some behaviour is unacceptable. They work as part of a group or class, and understand and follow the rules. They adjust their behaviour to different situations, and take changes of routine in their stride.

Understanding the World (Technology)

Children know the importance for good health of physical exercise, and a healthy diet, and talk about ways to keep healthy and safe.

Understanding the World (Technology)

Children know the importance for good health of physical exercise, and a healthy diet, and talk about ways to keep healthy and safe.
